

Mile High
Behavioral Healthcare

To our Generous Supporters,

It has been a year of growth for MHBHC in 2023. Our decision to pause fundraising was deliberate in order to focus on opening a new facility for youth, adolescents, and their families. In a way that is unparalleled in the nation, the Family Preservation Center will provide information, resources, and services that have never been available before, thanks to Adams County, City of Aurora, ARPA funding, BOMA (Denver Metro Building Owners and Managers Association), (CRA) Colorado Roofing Association, and Colorado Access.

A number of tangible resources are available to ease emotional and financial burdens and to promote stability. In addition to parenting classes, case management, individual and family therapy, and experiential therapy (pottery, recording studio, children's theater stage, etc.), we will also offer family nights, after-school programming, a STEM lab, a drop-in center for teenagers, a food pantry, as well as many other services to encourage family formation and strengthen self-sufficiency.

Renovations are currently underway and the building is expected to open in Spring 2024.

Many of you have expressed an interest in being a part of the Family Preservation Center for years to come, showing your support for the youth and families we serve, as well as continuing to make your annual tax-deductible donation. **In place of a contribution to this year's fundraisers, MHBHC invites you to take part in creating a lasting legacy through individual, family, foundation, and corporate giving.** Thousands of youth, adolescents, and families will benefit from the funds raised by advancing experiential therapy and helping to furnish our facility. Please join us at our ribbon cutting, not only to witness your lasting impression but to be a part of making this a reality for our community. Keep an eye out for the ribbon cutting save the date! There are several ways for you to leave a lasting legacy with your gift.

Your support will enable us to continue making life-changing programs for generations to come.

Thank you,

Adele and Gisselle, 11-year-old twins, and their mother Reaya, have received services similar to those available at the Family Preservation Center. Reaya shared, "I felt hopeless, I was not equipped with all of the resources to stay sober while learning how to care for my twins alone. Middle school can be a really rough time for kids with all of the factors in today's scary world. The support, resources, and therapy the girls and I continue to receive are changing their path to success. This is allowing me to break the cycle of years of family trauma."
